May 1, 2016

Daniel Lowrey, Deputy Director  
Department of Building Inspection  
1660 Mission Street, 2<sup>nd</sup> Floor  
San Francisco, CA 94103

Re: 571 Myra Way, San Francisco  
Lot: 005, Block: 2962A

Dear Mr. Lowrey,

Thank you for your interventions in the case of the non-permitted excavation and building work at 571 Myra Way requiring the project sponsor to comply with applicable provisions of the San Francisco Municipal Codes.

In view of the seriousness of the allegations made in the online report, I would appreciate your providing the following information:

1. The nature of the internal investigative procedure required within City departments in response allegations of illegal activity within a City department;
2. whether an investigation been initiated in the case of the serious allegations made re\_571 Myra;
3. the penalties required by law in the case of the non-permitted work at 571 and whether they will be applied in the case of the violations at 571?

Please feel free to contact me for any additional information that you might require in this matter. I can be reached at 415.902-9058 and at this email address. Once again, thank you for your assistance.

Sincerely,

Robert Gee  
President

### COMPLAINT STATUS AND COMMENTS

DATE	TYPE	DIV	INSPECTOR	STATUS	COMMENT
02/01/16	CASE OPENED	BID	Berrios	CASE RECEIVED	
02/01/16	OTHER BLDG/HOUSING VIOLATION	BID	Berrios	FIRST NOV SENT	1st nov sent by RB
02/02/16	OTHER BLDG/HOUSING VIOLATION	BID	Berrios	CASE UPDATE	copy of 1st nov mailed by jj
03/25/16	OTHER BLDG/HOUSING VIOLATION	BID	Berrios	TELEPHONE CALLS	received phone call from complainant informing me that the work at complaint address as been ongoing and that the front exterior is in process of being removed, he further stated that he could not find permits online indicating that permits has been issued for removal of the front facade. He futher stated that it appears that the planning process has be bypassed in issuance of the permit for compliance with the rear addition. Informed complainant that i will stop by and followup on his complaint.
03/25/16	OTHER BLDG/HOUSING VIOLATION	BID	Berrios	ADDENDUM TO NOV	
					reviewed inspection history and observed that Senior Inspector Bernie Curran has issued ok to pour on retaining wall installed without permit. Conversation with Senior Inspector Curran prior to issuance of permit was that he to observed newly pour foundations at prop lines being painted. Inspectionn history show Senior Curran signing off on ok to pour retaining wall prior to soils engineer inspecting and reporting on Stability of Hillside to determine if hillside had been undermined. Farther Senior Curran should have issued a 2nd NOV for falsification of foundation plans Knowing that the plans if present at the

03/25/16	OTHER BLDG/HOUSING VIOLATION	BID	Berrios	CASE UPDATE	time did not show the newly poured foundation at Prop line walls. He furthers should have noted that the foundation plan which was part of a horizontal addition did not go through nor get approval from the planning department for encroachment into established set back requirements into the back yard. Review of Permit details report indicate the Permit Application # 201601257911 printed on the approved foundation plan submitted to comply with the 1st NOV had already been issued under the original base permit to reflect that the NOV work had gone thorough and received planning approval and that the horizontal addition had not occurred. As PA 201602038760 is the permit application that should have been noted on the approved foundation plan which did not receive plan approval, Horizontal addition require 311 notification and base on the time line of the approval process would not have taken 1 day to approve. It appears that the plan check process as been falsified as well. Note Approval of a retaining wall with ok to pour and waiting for the forthcoming soils report of a potentially undermined hillside is not standard practice and potentially undermines the hillside supporting properties above 571 Myra Wy.
03/25/16	OTHER BLDG/HOUSING VIOLATION	BID	Berrios	INSPECTION OF PREMISES MADE	Upon arrival requested to see plans and job card, contractor refused to present job card stating that he had left it at home in San Mateo, he presented the plans, review of the plans indicates that the foundation plan has been falsified, at time of issuance of 1st NOV observed contractor painting property line foundations on both sides, directed contractor to stop painting, however painting continued. Upon review of plans observed that the foundations newly poured at prop lines were shown as existing. Foundations painted may have undermined neighboring property. The remaining foundations were completed without inspection. Further informed contractor that he did not submit plans with NOV attached as noted and stated on the Notice of Violation. Directed contractor to stop all work. Issued 2nd NOV for work without inspection and submitted plans were falsified. Directed contractor to proceed with directives issued under 1st NOV and to stop all work
03/25/16	OTHER BLDG/HOUSING VIOLATION	BID	Berrios	ADDENDUM TO NOV	2nd NOV issued for Falsification of Foundation plan, work proceeding without inspection and work beyond scope of permit.
04/04/16	OTHER BLDG/HOUSING VIOLATION	INS	Berrios	ADDENDUM TO NOV	Amended NOV issued by Kevin McHugh.

## Miraloma Park Improvement Club

April 13, 2016

Daniel Lowrey, Deputy Director  
Department of Building Inspection  
1660 Mission Street, 2<sup>nd</sup> Floor  
San Francisco, CA 94103

Re: 571 Myra Way, San Francisco  
Lot: 005, Block: 2962A  
Building Permit Applications #201601257911 and 201602038760

Dear Mr. Lowrey:

On behalf of the Miraloma Park Improvement Club (MPIC) with our 2,200 home constituency on the slopes of Mt. Davidson, I am writing to request your prompt attention to a matter of deep concern to our community: the serious and potentially hazardous permit-related infractions at 571 Myra Way. We draw your attention to this problem for the following reasons:

1. Construction not permitted by the Department of Building Inspection could pose dangers to the building inhabitants and adjacent neighbors.
2. The slope of the lot, amount of excavation, depth of excavation, and extent of facade changes may trigger Environmental Evaluation with the Planning Department, which ensures responsible work in relation to the environmental impact of such changes pursuant to the California Environmental Quality Act (CEQA).
3. The Planning Department evaluates such ground floor remodeling for designs that could easily be converted into illegal dwelling units.
4. The Planning Department reviews such facade changes to ensure quality design. Since the 1949 building is over 50 years old, a Historic Preservation Technical Specialist (preservation planner) would also review the design to ensure that features of potential historic value are maintained.
5. If the building envelope is expanded, the Planning Department would require neighborhood notification so that the neighbors and the MPIC provide feedback.

In addition to the above problems, there are the following issues that Building Inspector Raymond Berrios has noted on the Department of Building Inspection's Complaints Tracking System (<https://dbiweb.sfgov.org/dbipts/default.aspx?page=AddressComplaint&ComplaintNo=201696401>, copy attached):

1. Contractor refusal to present the Job Card.
2. Work beyond the scope noted on the Building Permit.
3. Falsification of the Foundation Plan.
4. Approval by a Senior Building Inspector of a concrete retaining wall pour without a permit and prior to a soils engineer inspecting and reporting on the stability of the hillside to determine if any undermining of the adjacent structures had occurred.
5. Front stucco and windows removed prior to permits or historical review.

The MPIC takes particular note of Item 4 (immediately above) and appreciates the responsiveness and professionalism of Building Inspector Berrios in determining the infractions and in issuing the Notices of

Violation (NOV), and we request that the NOV corrections be reviewed with careful scrutiny to ensure that the appropriate permit review processes by the Planning Department and the Department of Building Inspection are completed *prior* to construction resuming.

The Miraloma Park Improvement Club has a publicly stated policy of zero-tolerance of illegal activity.

Please feel free to contact me for any additional information that you might require in expediting investigation of this matter. I can be reached at 415.902.9058 and at this email address. Thank you for your assistance.

Sincerely,

Robert Gee  
President

Mr. Hinchion,

Re: Complaint #201696401

Kevin McHugh forwarded me your email address as the enforcement officer dealing with the property at 571 MyraWay. My home is next door (575) to the property in question. I am writing you for two reasons: (1) Since I am not familiar with this process and am not sure where inspection and enforcement overlap I wanted to make you aware of my concerns with regard to the extensive excavation that has taken place (beginning in the garage and extending through to the backyard) at 571, and the build-out of their property so as to abut a previously exposed part of our side wall. My concerns relate to foundation integrity as it impacts us and water run off so as not to cause leakage and or other damage to our property. (2) As a concerned neighbor with a vested interest in the outcome of this matter, how will I be able to track future actions that your office will be taking as you proceed through the enforcement process and resolution of the outstanding violations?

Thank you for your time and attention.

Dan Kleinman
